

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Body	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Atlanta BeltLine Corridor Design	Atlanta BeltLine, Inc.	86 Pryor Street, SW	Suite 200	Atlanta	GA	30303	The Atlanta BeltLine is the largest and most comprehensive urban corridor redevelopment project underway in the United States. Requested funds will be used towards the comprehensive preliminary design plan for the 22-mile BeltLine Corridor based on the transit and multi-use trail alignments identified in the environmental impact statements.	\$1,000,000
America SCORES Atlanta Expansion	America SCORES Atlanta	2323 Perimeter Park Drive, NE		Atlanta	GA	30341	America SCORES Atlanta (ASA) provides 120 children ages 8-11 with safe, structured, and supervised after-school youth development programming. America SCORES is a national non-profit that provides the only after-school program using soccer, creative writing, and community service to improve academic performance, health and well-being among at-risk youth in urban public elementary schools. The program serves at-risk youth by: providing a safe place to play, combating childhood obesity with 6 to 8 hours of weekly supervised physical activity, increasing literacy and academic performance, and promoting civic responsibility with community service and research projects. Attaining higher education and reducing factors for obesity will help members of the community, state and nation to be better prepared for the work force and reduce instances of chronic disease.	\$100,000
Associated Colleges of the South Alliance for Critical Languages and Cultures	Associated Colleges of the South	1975 Century Boulevard, Suite 10		Atlanta	GA	30345	The Associated Colleges of the South, a nonprofit organization representing sixteen outstanding institutions in twelve southern states, proposes to create an alliance focused specifically on the teaching of critical languages and cultures related to China and the Middle East – Chinese and Arabic – as well as other less commonly taught languages such as Farsi, Persian, Turkish and Urdu. National leaders have emphasized the importance of effective communications with people from other nations; this is critical to tearing down political, economic, and social barriers and achieving diplomatic goals in the increasingly globalized world of 21 st century.	\$6,000,000
Atlanta Beltline Trail Preliminary Engineering, Atlanta Development Authority	Atlanta BeltLine, Inc. and MARTA	86 Pryor Street, SW	Suite 200	Atlanta	GA	30303	The Atlanta BeltLine is the largest and most comprehensive urban corridor redevelopment project underway in the United States. The intent of this project is to increase transit access and mobility, especially for traditionally underserved populations, while significantly mitigating traffic congestion, increasing transit ridership in the region, and creating a smart-growth framework for Atlanta and the nation. Requested funding will be used to complete the environmental review and preliminary engineering for the next phase of the BeltLine multi-use trail. The BeltLine is an example of transformative investment in an existing railroad corridor that integrates transit, roadways, trails, parks, affordable housing, bicycle and pedestrian access, jobs and economic development.	\$1,840,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Atlanta Botanical Garden Edible Garden	Atlanta Botanical Garden	1345 Piedmont Avenue N.E.		Atlanta	GA	30309	The Atlanta Botanical Garden is a non-profit entity that serves the Southeastern region as a horticultural and cultural resource. Federal funding will be used to complete the construction of the Edible Garden which is being planted on the site of a current surface parking lot to add to the Atlanta Botanical Garden's mission-driven destination appeal. This new space, developed in response to mounting interest in organic foods, will teach visitors about the growing season from seedling to harvest.	\$600,000
Atlanta Center for Civil and Human Rights	Atlanta Center for Civil and Human Rights Partnership	50 Hurt Plaza		Atlanta	GA	30303	The Atlanta Center for Civil and Human Rights, a non-profit institution located in downtown Atlanta, will be a vital place of research, education and preservation of the history of Civil and human rights movements in the United States. The Atlanta Center for Civil and Human Rights Partnership seeks to develop exhibits and educational programs exploring the struggle for civil rights. In addition to exploring and sharing the history of the Civil Rights Movement and highlighting current freedom struggles, the Center will provide an economic benefit to the state of Georgia by attracting visitors – historians, researchers, visitors – from all over	\$1,000,000
Atlanta Center for Civil and Human Rights - Green Design and Construction	Atlanta Center for Civil and Human Rights Partnership	50 Hurt Plaza		Atlanta	GA	30303	The Atlanta Center for Civil and Human Rights, a non-profit institution located in downtown Atlanta, will be a vital place of research, education and preservation of the history of Civil and human rights movements in the United States and will serve as a key economic engine for Georgia by attracting national and international visitors and conferences. Requested funding would support the design and construction of a facility that is LEED certified and incorporates the highest level of green technologies including reduced energy use, waste reduction water conservation, and recycled materials. The Center is committed to using the innovative green technologies being developed in Georgia research institutions and across the country that exemplify green buildings and construction in the 21st century.	\$2,000,000
Atlanta Center for Civil and Human Rights Construction	Atlanta Center for Civil and Human Rights Partnership	50 Hurt Plaza		Atlanta	GA	30303	The Atlanta Center for Civil and Human Rights, a non-profit institution located in downtown Atlanta, will be a vital place of research, education and preservation of the history of Civil and human rights movements in the United States. The Atlanta Center for Civil and Human Rights Partnership seeks to develop exhibits and educational programs exploring the struggle for civil rights. In addition to exploring and sharing the history of the Civil Rights Movement and highlighting current freedom struggles, the Center will provide an economic benefit to the state of Georgia by attracting visitors – historians, researchers, visitors – from all over the region and the world.	\$1,000,000
Atlanta DeKalb International Training Center Infrastructure Improvements	Atlanta DeKalb International Training Center (ATLANTA DITC)	Brook Run - Cottage 6	4770 North Peachtree Road	Atlanta	GA	30338	The Atlanta DeKalb International Training Center (ATLANTA DITC) is a living legacy to the 1996 Atlanta Olympic Games and has evolved into a nationally- and internationally-recognized center. The requested funding would be used to rehabilitate the John H. Lewis Student Athletic Center at Morris Brown College in Atlanta, GA. The ATLANTA DITC has the potential to evolve into multi-national world-class center for promoting peace and reconciliation through sports.	\$1,000,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Request Amount
Atlanta Drug Market Invention Project Operation Clean Sweep	City of Atlanta/ Atlanta Police Department	675 Ponce de Leon Avenue	5th Floor	Atlanta	GA	30308	Atlanta Drug Market invention Project Operation Clean Sweep is intended to reduce crime rates and shut down open air drug markets that affect the communities in and around English Avenue, Vine City and other parts of the City. This initiative offers alternative solutions for offenders in stages when family and community intervention is most advantageous. The purpose of the project is to respond to a concentrated drug market in Metro Atlanta. The area is widely known as the center of heroin and cocaine distribution in Atlanta and a pipeline for the southeastern United States.	\$450,000
Atlanta Hartsfield-Jackson C4 Center	Hartsfield-Jackson Atlanta International Airport	City of Atlanta - Department of Aviation	PO Box 20509	Atlanta	GA	30320	Hartsfield-Jackson Atlanta International Airport is the busiest airport in the nation with over 85 million passengers per year. The goal of the Atlanta Hartsfield-Jackson C4 Center initiative is to create a "command center" that can coordinate disaster response. Rapid response to natural disasters and terrorism acts by state, local and federal entities is critical to keeping the airport, and thereby the nation's aviation system, running without significant interruption. Nearly 12 percent of all U.S. air traffic flows through Hartsfield-Jackson Atlanta International Airport resulting in an entity that FEMA must ensure is adequately prepared to deal with emergencies. Each day approximately 235,000 passengers pass through the airport resulting in an annual throughput of over 85 million travelers.	\$12,000,000
Atlanta Mayors Student Youth Initiative	City of Atlanta	55 Trinity Avenue, SW	Suite 2400	Atlanta	GA	30303	The City of Atlanta's Workforce Development Agency seeks to continue and expand the Mayor's Youth Initiative which provides public high school seniors from across the City with mentoring and financial assistance in pursuing a post-secondary education. This project is a partnership between the City, local businesses, and the non-profit community; together they provide internships, technical and job training assistance. The goal of this initiative is to offer targeted opportunities to an increasing number of low-income students in order to help them be better-prepared and equally competitive in their college studies and eventual careers. This initiative exemplifies the federal College Access Challenge Grant Program.	\$250,000
Atlanta Tech/Atlanta Collaborative Healthcare Training Initiative	City of Atlanta/ Atlanta Workforce Development Agency	818 Pollard Boulevard		Atlanta	GA	30315	The City of Atlanta's Collaborative Healthcare Training Initiative trains high school graduates in health care professions. In Georgia, manufacturing jobs have steadily decreased, and services, especially in the health care field, offer stable, job opportunity in the 21 st century. The simultaneous, escalating cost of healthcare has contributed to concerns about access to affordable, quality services — especially for low income people. High school juniors and seniors enroll in a ten-week summer training program and earn certifications as nursing assistants, patient care technicians and pharmacy technicians. Access to quality affordable healthcare for at least the last decade has been a major national issue.	\$150,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Description	Requested Amount
Atlanta-Fulton County Emergency Operation Center Technology Enhancement	Fulton County (Atlanta) Emergency Management Agency	130 Peachtree Street, SW	Suite G-157	Atlanta	GA	30303	Atlanta-Fulton County Emergency Operation Center (EOC) Technology Enhancement is the complete upgrade of the existing IT infrastructure in the Atlanta-Fulton County Emergency Operations Center (EOC). This initiative will replace existing systems that have exceeded their lifecycle, and replace those with more flexible and scalable systems, thereby making future upgrades and enhancements more cost-effective. It also ensures that the EOC is capable of coordinating with the county government, the governments of 14 municipalities, two school boards, and one mass transit authority. This project will ensure that Atlanta-Fulton County Emergency Management Agency can continue to support the county as the local coordinating entity for all emergencies and disasters, as it is statutorily obligated to do.	\$200,000
Auburn Avenue Research / African American Library Digitization Project	Fulton County (Atlanta) Public Library System	One Margaret Mitchell Square		Atlanta	GA	30303	The Fulton County (Atlanta) Public Library System is working to improve and increase public access to rare and historical documents and other materials. Currently this significant information is only available to those within the region or who are able to travel to the library. The Auburn Avenue Research / African American Library Digitization Project is a one-time hardware and software acquisition that will enable the digitization of materials important to African and African American history housed at the Auburn Avenue Research Library on African-American Culture and History and make them searchable through an Internet database accessible to anyone across the country and around the world.	\$250,000
Autism Statewide Delivery System Master Plan	Marcus Autism Center	1920 Briarcliff Road		Atlanta	GA	30329	The Marcus Autism Center's Master Plan will be a model in establishing a national Center of Excellence for research and training in the area of Autism and related disorders. The Marcus Autism Center is a nonprofit organization located in Atlanta, provides services designed to diagnose, treat and provide support for children who have been diagnosed with, or exhibit signs of Autism and related disorders. This Center will leverage academic, clinical and community resources; and private and public education systems to create a community based treatment network. This model will address transition planning for children aging out of services provided by pediatric practitioners.	\$300,000
Best Buddies Georgia	Best Buddies International	1101 Juniper St. NE, #519		Atlanta	GA	30309	Best Buddies International is a non-profit organization dedicated to enhancing the lives of people with intellectual disabilities by providing opportunities for one-to-one friendships and integrated employment. This request is to support the Best Buddies' collegiate chapter in Atlanta Georgia effort to expand to 25 participants, and to provide leadership trainings, and programming funding. These connections serve all participants in developing socialization, awareness, and technical skills.	\$10,417

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Cancer Center and Blood Disorders Services of Children's Healthcare of Atlanta	Children's Healthcare of Atlanta	1600 Tullie Circle		Atlanta	GA	30329	The Children's Healthcare of Atlanta seeks to support hematology, oncology, and bone marrow transplantation services at Grady Hospital and Children's Healthcare of Atlanta. The Cancer Center and Blood Disorders Service is dedicated to protecting health and promoting quality of life through the prevention and control of disease and disability in children with blood disorders. Their sickle cell clinic conducts research, provides a medical home for individuals with the disease, and will serve as a national model for other urban health centers that are struggling to meet the needs of this underserved, chronically-ill population.	\$300,000
Center for Advanced Bioengineering for Enhanced Soldier Survivability	Georgia Institute of Technology	315 First Drive		Atlanta	GA	30332	Georgia Institute for Technology's Center for Advanced Bioengineering for Enhanced Soldier Survivability funding will focus on research in advanced tissue and bone regeneration and wound care and treatment issues relevant to military trauma care. Fundamental research advances in these areas can lead to technologies and techniques for better immediate clinical combat care as well as address long term care issues involving limb loss, tissue and organ damage facial and dental injuries and	\$3,000,000
Center for the Diagnosis of Pathogens	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	The Viral Immunology Center at Georgia State University requests funding to design and develop a portable cell biosensor system equipped with laser technology for analyses of cells exposed to pathogens. Recently, the center successfully developed a cell-based system that can be utilized to rapidly identify viruses along with an artificial neural network trained for data interpretation. Requested funding will be used to support the next steps – the design and development of a device in which cells can be stabilized on a microchip and analyzed using a battery-powered micro laser. This device will be portable and capable of monitoring a growing number of pathogens in a wide variety of circumstances from wounds to environmental reservoirs. This request is consistent with a larger Defense Department mission to develop a pathogen-detection system to detect widespread epidemics and pandemics before they endanger large populations.	\$2,500,000
Center for Vaccine Scale-Up/Process Research, Phase II	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	The Center for Vaccine Pre-Manufacturing at Georgia State University requests funding to develop a vaccine/ biologics scale-up/process research facility. The facility will assess and develop methodologies and protocols that will properly characterize and define vaccines/biologics during the various stages of manufacturing, including the final product, and during storage and stock-piling, with the aim to develop turn-key approaches to vaccine development and manufacture. This would lead the nation to more rapid and economical development of vaccines and critical biologicals.	\$1,700,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Child Maltreatment Prevention in Georgia	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	Georgia State University's National SafeCare Training and Research Center is the only substantial provider of SafeCare training in the United States, outside of research settings and will hopefully serve as a model for programs throughout the state and across the nation. In order to prevent child maltreatment, this initiative will target high-risk families in the metropolitan Atlanta area, develop a collaborative pilot program centered on home visitation, and launch a regional, coordinated strategy to improve efficiency and effectiveness of services with other regional organizations. SafeCare is a successful model for identifying and circumventing risk factors of violent and delinquent behaviors that lead to child abuse.	\$500,000
Children's Healthcare of Atlanta's, Georgia Children's Health Alliance (GCHA)	Children's Healthcare of Atlanta	1600 Tullie Circle		Atlanta	GA	30329	Children's Healthcare of Atlanta (GCHA) is seeking funding for Georgia Children's Health Alliance's efforts in performing a comprehensive environmental assessment of current child health efforts in the state, building a collaborative network, and developing and implementing pilot programs. Children's Healthcare of Atlanta formed the Georgia Children's Health Alliance to unite resources and pediatric health experts from across the state in an effort to create healthier futures for Georgia's children. This collaborative initiative is designed to streamline the activities associated with select child health issues by reducing duplicative efforts and administration.	\$1,400,000
Children's Healthcare of Atlanta's, School Nurse Liaison Program	Children's Healthcare of Atlanta	1600 Tullie Circle		Atlanta	GA	30329	Children's Healthcare of Atlanta is working to extend and continue its Atlanta's School Nurse Liaison Program. The nurse liaisons serve as a resource to school nurses on different healthcare issues, and assist with reentry into school of recently discharged patients from various area hospitals. Nursing liaisons also help school nurses build their school health policies for care of chronic illness and consult on school accommodations for children with health impairments and disabilities. Healthy People 2010 considers school health and school nursing as a critical way to provide access to care for children. The School Nurse Liaison Program serves as a national model for the ability to assist in the development of school wellness policies.	\$400,000
City of Atlanta Renewable Energy and Conservation Project	City of Atlanta	Executive Offices	55 Trinity Ave, SW	Atlanta	GA	30303	The City of Atlanta is working to upgrade the water and energy efficiency on the city's aging building infrastructure and install on-site renewable energy generation resources in its facilities. The city plans to replace the remaining 722 traffic lights and convert street lights to LED lights. This initiative will generate substantial jobs, foster new industries, and improve public health and safety through upgrades to public infrastructure. These projects will set a positive vision for a sustainable energy future in the southeast, the region that needs it the most.	\$1,000,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	ZIP	Purpose	Requested Amount
City of Atlanta's Department of Watershed Management Streetscape Initiative	City of Atlanta	55 Trinity Avenue		Atlanta	GA	30303	The City of Atlanta has a comprehensive, long-term plan to ensure clean drinking water, streams and wastewater flows for Atlanta and those downstream. In complying with the Federal Consent Decrees, the City's Department of Watershed Management will have to resurface streets and sidewalks destroyed by construction in the areas adjacent to sewer rehabilitation projects. Funds requested for this project will specifically support the street and sidewalk resurfacing activities. This initiative is a key component in the City's remaining globally competitive by serving as an international hub for business and tourism.	\$750,000
Clifton Corridor at CSX Railroad	DeKalb County Government	1807 Candler Road		Decatur	GA	30032	The DeKalb County Public Works Department is responsible for the design, construction and maintenance of public roads within unincorporated DeKalb County, Georgia. The Clifton Corridor Bridge over CSX-Railroad is located in a congested location. Funding will be used to replace the existing bridge with a larger span and to realign the road. This construction will improve access to the headquarters of the CDC as well as Emory University and two neighboring hospitals. It will also promote alternative transportation by including bike lanes and by allowing room underneath the bridge for a bus shuttle road passage.	\$2,000,000
College Park After School Program	City of College Park	3667 Main Street		College Park	GA	30337	College Park, similar to many communities across the country, has a significant number of "latch key" children. The After School program refocuses the scope of the existing after school program on latch key children underperforming academically. Funding will be used for the enhancement and expansion of a community after-school program designed to improve academic achievement in College Park's elementary schools. The City will generate a model program and best practices that can be applied to other communities with latch key problems. This initiative exemplifies how every community can learn how to use modest resources to turn unsupervised and potentially unproductive after-school hours into a positive, productive time for our nation's youth.	\$336,750
College Park Connector Bus	City of College Park, GA	3667 Main Street		College Park	GA	30337	The City of College Park provides an array of services to the City's residents and businesses. Requested funding would be used to purchase a Compressed Natural Gas (CNG) bus as a means for visitors and workers to travel from the local MARTA station to their destinations without the need to rent a car or hire a taxi. Bus connectivity will create a transportation loop that links visitors to all that the City has to offer, around the Convention Center, to CONRAC, and to downtown College Park. This initiative benefits the airport's users as well as encouraging the use of mass transit.	\$185,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Responsible Agency	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Communities of Atlanta/DeKalb	Communities In Schools of Atlanta/DeKalb	600 West Peachtree St., Ste. 1250		Atlanta	GA	30308	Communities In Schools of Atlanta partners with businesses, health services civic groups, juvenile justice and youth development agencies to provide comprehensive support to children and families in 62 schools in Atlanta and DeKalb County including 20 elementary schools, 19 middle schools, 22 high schools and one nontraditional school. The flexibility of the program allows students who are far behind in credits to accelerate their learning so that they can attain normal grade level status or even graduate ahead of schedule. Requested funding would be used to support programming and operations at the West End Academy Performance Learning Center (PLC). CIS also provides a variety of support programs at ten schools in DeKalb County, including nine elementary schools and one middle school. Services brought to DeKalb schools through CIS include tutoring programs, structured incentive programs, links to health and human services, book distribution programs, summer enrichment activities, and events designed to encourage parents' involvement in their child's education.	\$100,000
Composite Tissue Transplantation for Combat Wound Repair - Emory University	Emory University Transplant Center	101 Woodruff Circle, 5105-WMB		Atlanta	GA	30322	This project is specifically directed toward the refinement of methods for the application of transplant therapies for traumatic injuries, particularly those serving the military need for clinical limb replacement. While combat death has decreased due to improved body armor, a growing number of soldiers lose the use of their hands or suffer from tissue defects that cannot be replaced with current reconstructive technologies provoking an annual cost of prosthetic services for veteran's exceeding \$1.3 billion annually with generally poor functional outcomes. This program has begun comprehensive translational research into the immune biology governing this advanced approach for reconstructing severe combat injuries such as amputations and severe burns, and has initiated screening and care of amputees at the Atlanta VA Medical Center who may be candidates for this procedure.	\$2,000,000
Consortium on Plant Biotechnology Research	Georgia Institute of Technology	mailstop 0230/Georgia Tech		Atlanta	GA	30332	The Consortium for Plant Biotechnology Research, Inc. (CPBR) supports biotechnology research and technology transfer, facilitating research interactions among academic, industrial and government scientists. The research produces technological innovations for higher quality crops and cropping practices, improved biomass energy production, commercially valuable alternative co-products, objective information on the relationship between genetically engineered plants and the environment, prevention/remediation of hazardous wastes, and reduction of greenhouse gas emissions.	\$6,000,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Request Amount
Covenant House Georgia Rights of Passage Transitional Living Program	Covenant House Georgia, Inc	2488 Lakewood Avenue, SW		Atlanta	GA	30315	Covenant House Georgia (CHGA) is non-profit organization that serves homeless, runaway, and other young people on the brink of homelessness and those adjusting to independent living. The Covenant House Georgia Rights of Passage program provides transitional housing for young adults ages 18-21. This program targets an underserved population, that of young people who are "aging out" of foster and residential care, homeless youth, and other who are at risk of homeless. The Rights of Passage Program will include housing, education, job training, counseling, life skills, mentoring, financial skills a health care support with the goal of developing independent, self-sufficient young adults.	\$390,846
Decatur Railroad Crossing Safety Improvements	City of Decatur	509 North McDonough Street	P.O. Box 220	Decatur	GA	30031	The City of Decatur seeks to create a safe crossing for pedestrians, bicyclists, and motorists at one of the City's at-grade railroad crossings. The CSX railroad corridor bisects the city and is a major barrier for residents trying to reach the downtown commercial district and students participating in the Safe Routes to Schools program. This project exemplifies at least three federal priorities: 1) the implementation of Safe Routes to Schools; 2) the reduction of air pollution through increasing the viability of alternative modes of transportation; and 3) increasing safety through crash reduction at railroad crossings.	\$3,000,000
DeKalb County Georgia Parking Expansion for Senior Center- Resubmission	Community Development Department, DeKalb County	1807 Candler Road		Decatur	GA	30032	The Lou Walker Senior Center is a non-profit, multipurpose facility for active senior adults age 55 and older that is owned and operated by DeKalb County, Georgia. The Senior Center, the first of its kind in Georgia, provides critical health, wellness and social activities for more than 3,000 DeKalb County seniors. Requested funding would be used for land acquisition and additional surface parking spaces to support the Lou Walker Senior Center. This project will enable substantially more seniors to access the senior center and allow the Center to operate at full capacity. Centers such as these help seniors remain healthy and active.	\$1,400,000
Discovery to Recovery: Enhancing Neurorecovery for People With Catastrophic Injuries and our Wounded Warriors	Shepherd Center	2020 Peachtree Rd. NW		Atlanta	GA	30309	Every year thousands of individuals including American military personnel experience catastrophic neurological injuries. These injuries cost millions over a lifetime; the innovative therapies will benefit returning veterans significantly. Shepherd Center, a non-profit hospital, is committed to building the capacity to become one of the first sites to offer innovative treatments and therapeutic approaches to promote meaningful recovery. This initiative focuses on developing the clinical and scientific expertise of progressive neuro-recovery therapy treatment. This treatment is derived from basic neuroscience, including cell regeneration, neurosurgical advances, and innovative therapies that take advantage of neuroplasticity to promote meaningful recovery available and accessible to as many individuals in need as possible.	\$1,500,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Downtown Redevelopment	City of East Point, Georgia	2777 East Point Street	Office of the City Manager	College Park	GA	30344	The City seeks to redevelop several targeted blocks through assistance with façade improvements and other infrastructure upgrades. Several small shops have already opened downtown, including florists, cafes and ethnic restaurants, and clothing boutiques. When completed, the project will be a catalyst for the revitalization of the areas adjacent to the central business district. The reforms will encourage pedestrians using the MARTA stop to shop in downtown East Point and revitalize an aging downtown core.	\$700,000
Downtown Roadway Improvements	City of East Point, Georgia	2777 East Point Street	Office of the City Manager	East Point	GA	30344	The City of East Point seeks to reconfigure the downtown area to enable greater connectivity between transit, cars, and pedestrians. With the goal of realigning the area to allow greater traffic flow and connectivity with the MARTA station, the East Point Downtown Roadway Improvements will include construction of sidewalks, curbs, street lighting, and other streetscape repairs and improvements. This initiative also seeks to realign several intersections around the MARTA station to better protect the City's elderly and disabled population.	\$800,000
Dunwoody Place Roadway Upgrades/ City of Sandy Springs	City of Sandy Springs	7840 Roswell Road	Bldg 500	Sandy Springs	GA	30350	The City of Sandy Springs' Public Works Department is responsible for the City's street transportation system. Funds for this project will be used to provide roadway upgrades to the Dunwoody Place corridor from Roswell Road to State Route 400. The Dunwoody Place Corridor is currently a four lane/ three -lane highway that serves regional commuters who travel within the City of Sandy Springs as well as through the City to other parts of the Metro Atlanta Region. Due to the operational issues within the corridor, this project will help provide improved safety to the thousands of users that use this corridor daily.	\$1,000,000
Emergency Operations Center Technology Upgrade	City of College Park	3667 Main Street		College Park	GA	30337	College Park is home to the busiest passenger airport and the FAA's Southern Region Office. Almost all airport passengers and employees access it by roads and highways patrolled by the College Park Police Department. The requested funding will complete the technology upgrade of the College Park Emergency Operations Center. The Emergency Operations Center Technology Upgrade involves final build out of the 800 MHz communications system, including hardware, software, and licensing and will allow the City's public safety agencies to fully communicate with regional jurisdictions, including the FAA and the airport.	\$871,000
Energy Conservation and Energy Saving Project.	Quality Living Services for Senior Citizens	P. O. Box 311045		Atlanta	GA	31131	Quality Living Services, Inc. (QLS) is an Atlanta-based, non-profit that has provided a variety of services; activities, and affordable housing for Atlanta's elderly population since 1985; currently, there is a two-year waiting list for its services. The purpose of this project is to make housing repairs and replacements that will save energy and conserve energy at QLS Meadows Housing for Senior Citizens. The funds will be spent to replace entrance doors and storm doors and install new carpet and padding for more energy-efficient homes for the residents.	\$200,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Subject	City	State	Zip	Description	Requested Amount
English Avenue Community Justice Center	Fulton County District Attorney's Office	136 Pryor Street	Third Floor	Atlanta	GA	30303	Fulton County District Attorney's Office seeks to construct a comprehensive Reentry Program for young men reentering society following Incarceration. With the goal of community and economic development, the English Avenue Community Justice Center initiative includes a pre-trial diversion program, community partnership, and services including education, job training and placement, substance abuse and counseling and treatment, mental and physical health assessment and treatment, and housing assistance.	\$3,750,000
Entrepreneurship Development in CAFTA - A UGA/CAU Partnership (University of Georgia and Clark Atlanta University)	University of Georgia	University of Georgia		Athens	GA	30602		
Entrepreneurial Development Center	City of College Park	3667 Main Street		College Park	GA	30337	The City of College Park seeks to connect entrepreneurial needs with qualified community, state, and federal resources and to provide guided professional and business direction. The Center helps entrepreneurs maximize their success by helping them navigate resources, strengthen knowledge, improve skills, form strategic alliances, and secure proper capitalization. It provides accelerator/incubator level support for start-up entrepreneurs as well as those with long-term established businesses. The initiative serves as a national model for SBA and other small cities on how to leverage nearby resources and support small business.	\$500,000
Entrepreneurship Development in CAFTA - A UGA/CAU Partnership (University of Georgia and Clark Atlanta University)	University of Georgia/ Clark Atlanta University	University of Georgia		Athens	GA	30602	The University of Georgia/Clark Atlanta University's Entrepreneurship Development initiative in CAFTA-DR countries will help small business entrepreneurs, especially women, develop economically, fight poverty, and strengthen market institutions. Requested funds will be used to support the program in three parts: a) US experts travel to CAFTA-DR for in-country consultations and preliminary training; b) selected CAFTA-DR entrepreneurs will then travel and participate in a six-week US-based business fellows program; and c) US experts travel back to CAFTA-DR to follow-up with the CAFTA-DR fellows and offer additional training and assessment in business plan development.	\$320,000
Entrepreneurship Development in Uganda: A UGA/CAU Partnership (University of Georgia and Clark Atlanta University),	University of Georgia/ Clark Atlanta University	University of Georgia		Athens	GA	30602	The goal of the University of Georgia/Clark Atlanta University's Entrepreneurship Development in Uganda is to help small business entrepreneurs, especially women, to develop economically, to fight poverty, and to strengthen market institutions. The funds will be used to support the program in three parts: a) US experts travel to Uganda for in-country consultations and preliminary training; b) selected Ugandan entrepreneurs will then travel and participate in a six-week US-based business fellows program; c) US experts travel back to Uganda to follow up with the Ugandan fellows and offer additional training and assessment in business plan development.	\$296,000

Environmental Infrastructure Project	City of East Point, Georgia	2777 East Point Street	Office of the City Manager	East Point	GA	30344	The City of East Point's Environmental Infrastructure Project addresses the ongoing investigation, planning and construction activities on an emergency and priority basis, as identified in the East Point Capital Improvement Plan. The project addresses a consent order between the City of East Point, the Georgia Department of Natural Resources and the U.S. Environmental Protection Agency related to repeated sewage and storm drain spills into the Chattahoochee River Basin. The project meets an immediate federal need and currently enforced federal mandate for East Point, and it is authorized in Section 219 of the Water Resources Development Act of 2007 (P.L. 110-114).	\$1,000,000
Environmental Infrastructure, City of Atlanta	City of Atlanta	55 Trinity Avenue		Atlanta	GA	30303	The City of Atlanta has undertaken the largest water and sewer renovation project in its history. Excessive overflows from the combined sewer system, coupled with sanitary sewer overflows and leaks in the separated area, are seriously impacting the metropolitan Atlanta regional water quality. The proposed project would improve surface water quality by providing combined sewer capacity relief to capture more storm water and sewage flows and associated flood relief in several areas of the City.	\$5,000,000
Expanding the Positive Behavioral Support Initiative from Elementary to Middle School in Atlanta, Ga.	Atlanta Public Schools and the Devereux Foundation	130 Trinity Ave SW		Atlanta	GA	30303	The Atlanta Public School (APS) system in conjunction with the Devereux Foundation, a Metro Atlanta-based nonprofit organization, seeks to expand the elementary school Positive Behavioral Support (SWPBS) initiative to include 6 APS middle schools. This effort is intended to reduce and prevent problem behavior throughout the student population and develop a secondary system of support, targeting students already at high risk for problem behavior. The middle schools will be selected by exhibiting high rates of behavioral problems, a prepared and engaged school leadership, and having enrolled a significant number of students whose elementary schools participated in the program. The goal of SWPBS is not only to make schools safer, but also to enhance the learning environment through the establishment preventative, comprehensive safety and intervention measures.	\$300,000
Expansion of Children's Healthcare of Atlanta at Hughes	Children's Healthcare of Atlanta	1600 Tullie Circle		Atlanta	GA	30329	Children's Healthcare of Atlanta facility at Hughes Spalding seeks funding for the renovation of the Child Protection Center adjacent to the Hughes Spalding Facility and for improving the telemedicine system at the facility. By 2007, Children's provided more than \$98.2 million in unreimbursed costs of care to patients and families in need who could otherwise not afford it. The new facility at Hughes Spalding will assist Children's in its commitment to the State of Georgia and the Southeast in serving children and families who lack health insurance.	\$1,000,000
Family Planning Services program	Planned Parenthood of Georgia, Inc.	75 Piedmont Avenue	Suite 800	Atlanta	GA	30303	Planned Parenthood of Georgia is a non-profit organization whose mission is to provide affordable and confidential quality health care to women in need; they mostly serve low-income women in need of reproductive health care and family planning services, health information and/or referral. Their Family Planning Services Program provides affordable, quality family planning services for women in need.	\$109,176

Fulton County High Intensity Crime Area Task Force	Fulton County Police Department	130 Peachtree Street		Atlanta	GA	30303	Fulton County Police Department seeks funding to establish a high-intensity, crime area interdiction task force in Fulton County targeting two areas experiencing an increase in violent crime: the Old National Highway Corridor and the Fulton Industrial Boulevard Corridor. Task Force members will work with residents and businesses to coordinate a continuum of prevention, intervention, and suppression programs specifically geared towards improving communication and concentrating on youth demonstrating at-risk, high-risk, and gang-related behaviors. The purpose of the Gang Interdiction Taskforce is to take elements of three federally supported initiatives and introduce citizens and members of the business community to programs, practices and recourses in an effort to reduce and deter crime. This program is sponsored and supported by the National Crime Prevention Council.	\$810,000
Fulton County Live Health Initiative Expansion	Fulton County Department of Health and Wellness	99 Jesse Hill Jr. Drive		Atlanta	GA	30303	Fulton County's Department of Health and Wellness operates the nationally-recognized REACH for Wellness Prevention Program. The expansion of this initiative will target residents in three specific neighborhoods where the incidence of cardiovascular disease is more than five times higher than the rest of Fulton County, GA. Requested funding will be used to engage and train residents, and improve the quality and years of healthy life and eliminate health disparities in these targeted communities through staff expansion and increased outreach programs and services. This program exemplifies the CDC's Office of Minority Health and Health Disparities (OMHD) mission to accelerate the elimination of health disparities for vulnerable populations as defined by race/ethnicity, socio-economic status, geography, gender, age, disability status, risk status related to sex and gender, and among other populations identified to be at-risk for health disparities.	\$500,000
Fulton County One-Stop Children/Families System of Care	Fulton County Department of Mental Health, Developmental Disabilities and Addictive Diseases (MHDDAD)	115 Martin Luther King Jr., Dr.	Suite 277	Atlanta	GA	30303	The Fulton County One-Stop Children/Families System of Care facility renovation will result in helping to reorganize service delivery systems by establishing a single point of entry into the system, better enabling a coordinated, long-term approach of uninterrupted services and programs. This facility will be located within the area that currently rates as having the highest level of substantiated cases of child maltreatment in the County.	\$273,000

Project Title	Responsible Entity	Address	Address 2	City	State	ZIP	Project Description	Requested Amount
GA Sewer System Rehabilitation	City of Atlanta	55 Trinity Ave, SW		Atlanta	GA	30303	The City of Atlanta has undertaken the largest water and sewer renovation project in its history. The evaluation of Atlanta's sanitary sewer system involves the inspection and repair of 2,200 miles of sanitary sewers throughout the city, which affects cities downstream and throughout the region. This evaluation is necessary in order for Atlanta to comply with the two Federal Consent Decrees to address their problems. The proposed project would improve surface water quality by providing combined sewer capacity relief to capture more stormwater and sewage flows and associated flood relief in several areas of the City. The proposed relief system would allow the flow volume, typically stored on surface streets, to enter the collection system. Excess flow volume would be diverted and captured in a deep tunnel system for later treatment and release. It will also prevent the entire burden from falling on Atlanta's low income rate payers. This project is authorized in 13 U.S.C. 1383(d)(1)(A).	\$2,000,000
Georgia Center for Brain Saving Therapeutics	Grady Health System	80 Jesse Hill Drive SE		Atlanta	GA	30303	As a leader in stroke and traumatic brain injury (TBI) care and research, Grady Health System is uniquely positioned to help improve clinical treatment of these diseases throughout the United States. The death and disability costs associated with each disease are astronomical. Requested funding will continue to advance improvements in stroke/TBI care and research. Grady served as test site for the use of tPA in the treatment of strokes, the only pilot site in the country to study the use of progesterone in treating TBI and is currently building the infrastructure to initiate and support research on the use of Goal Directed Therapy (GDT) in the treating TBI in the emergency department.	\$2,000,000
Georgia Drug Courts: Training Academy; Supreme Court/Administrative Office of the Courts	Administrative Office of the Courts	244 Washington Street, SW	Suite 300	Atlanta	GA	30334	The Administrative Office of the Courts, Georgia Drug Courts seeks to enhance drug court effectiveness across Georgia by developing and delivering the Georgia Drug Court Training Academy based on accepted best practices. The Training Academy will be held in the City of Atlanta and will bring much needed resources to new drug court professionals and economic support to Atlanta. Drug courts reduce crime, save prison and jail costs, restore families and hold offenders accountable. This project will assist drug courts in Georgia, particularly the large courts in Fulton County and Metro Atlanta and works in tandem with the goals of the Center for Substance Abuse Treatment (CSAT), the Substance Abuse and Mental Health Services Administration (SAMHSA) and the overall Department of Health and Human Services.	\$200,000
Georgia International Convention Center Project	City of College Park, GA	3667 Main Street		College Park	GA	30337	The project will specifically extend approximately ½ mile of sewer and water lines, with a small pump sub-station for each, to the hotel pads around the Georgia International Convention Center, which College Park owns and operates. This project seeks to enhance the quality and extent of amenities offered around the Hartsfield-Jackson Atlanta International Airport, the largest passenger airport in the world. By supporting additional hotels and meeting places, this initiative will make the area immediately surrounding the airport self-contained and distance-friendly for travelers flying into and out	\$550,700

Georgia State University Science Park	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	Georgia State University is near completion the University Science Park, which will include an integrated set of laboratories and support facilities in its Science Research, Teaching Laboratory and Economic Development buildings. The new University Science Park creates a triple-play environment, integrating life and health sciences teaching, research, and business development resources, all on the same site. Research will include computing, cancer, drug research and development, emerging and infectious disease, behavioral neuroscience, bioinformatics, environmental biology, and deadly biological pathogens.	\$3,000,000
Girls Incorporated of Greater Atlanta Programming	Girls Incorporated of Greater Atlanta	1100 Spring Street NW	Suite 700	Atlanta	GA	30309	Girls Incorporated of Greater Atlanta annually serves more than 5,000 girls between the ages of 6 to 18 throughout Metro Atlanta. The after-school and summer programming provides homework assistance, science, math and technology tutoring, economic literacy and career planning counseling, healthy lifestyle guidance, and life skills training. Many of those served by Girls Inc. come from single-parent and lower-income homes where child care, supplemental education is an expensive but vital component of providing, safe, stable, and positive environments during the afterschool and summer hours when the risk is greatest.	\$100,000
GoGirlGo! Atlanta Initiative	Women's Sports Foundation	3525 Piedmont Road, NE	Building 7, Suite 102	Atlanta	GA	30305	The Women's Sports Foundation GoGirlGo! Atlanta program is a mentoring, education and development program targeting at-risk teens to prevent drop-outs, truancy, crime, violence and drug abuse by promoting participation in sport and physical activity during after school hours when teens are at greatest risk for dysfunctional social behaviors. The program will provide equipment, free curriculum materials and assistance to schools, recreation agencies to over 400 non-profit metro Atlanta girl-serving organizations committed to addressing needs of sedentary girls.	\$900,000
Grady Health System Network Transformation	Grady Health System	80 Jesse Hill drive SE		Atlanta	GA	30303	Grady Health System, owned by a public hospital authority and leased to a non-profit organization, is the largest health system in the State of Georgia. The purpose of the project is to support the upgrade of Grady Health System's information system unified network. Upgrading the unified network is critically important to Grady's ability to rebuild its information system and implement a system-wide electronic health record. With approximately 40% of its patients being uninsured, this initiative helps Grady expand access to quality health care for individuals throughout the southeastern region with the implementation of a tele-medicine program that will improve the health status of all populations served. This initiative is consistent with the national commitment to improve access to health care, quality and reduce costs by leveraging health information technology.	\$3,000,000

Graham Circle Project, CHRIS Kids, Inc.	CHRIS Kids, Inc.	3109 Clairmont Road, Suite B		Atlanta	GA	30329	CHRIS Kids is a non-profit organization that provides mental health treatment to abused, neglected, delinquent, and rejected children, youth and families through an array of community based residential and non-residential services. Requested funding would be used towards programming and equipment purchases for the essential human services for homeless youth and youth with mental illness/substance abuse, ages 17-24, as they transition from the foster care, juvenile justice and mental health systems to adulthood.	\$2,000,000
Graham Circle Project, CHRIS Kids, Inc.	CHRIS Kids, Inc.	3109 Clairmont Road, Suite B		Atlanta	GA	30329		
Hammond Drive Roadway Upgrades/ City of Sandy Springs	City of Sandy Springs	7840 Roswell Road	Bldg 500	Sandy Springs	GA	30350	The City of Sandy Springs Public Works Department is responsible for the street transportation system of the City. Funds for this project will be used to provide roadway upgrades to the Hammond Drive corridor from Roswell Road to the DeKalb County line. The partnership between the City of Sandy Springs, DeKalb County, and PCID will create a complete future corridor from Roswell Road in Sandy Springs to Ashford Dunwoody in DeKalb County. The City will implement the improvements in order to accommodate the future traffic demand forecasted for this corridor. This project will help further the struggle against congestion mitigation in one of our most congested and populated regions in the U.S.	\$5,000,000
Hands On Atlanta: Change Agents Through Community Service	Hands On Atlanta	600 Means Street	Ste 100	Atlanta	GA	30318	Hands on Atlanta (HOA), the nation's largest community based non-profit, brings people together to transform neighborhoods, support non-profit organizations and strengthen the city's public schools. Requested funding would support two specific HOA initiatives. The parental education through the Family Outreach Initiative, trains more than 1200 Metro Atlanta parents on how to effectively help their children meet their academic requirements. With more than 52% of all Atlanta elementary school students reading below the national norm, the Discovery program gives more than 325 students the extra reading and math training they need on Saturday mornings through one-on-one mentoring and tutoring sessions. Both initiatives build on the administration's call to action and investment in American students.	\$350,000
Hard Labor Creek Observatory	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	Georgia State University is working to replace the 50-year-old telescope, which was originally obtained from KPNO, and to provide staff to support the educational programs described below which would serve all the citizens of Georgia. This program will provide observational opportunities that will enhance content knowledge; provide exposure to inquiry-based, interactive science learning experiences for students enrolled in the neighboring, predominantly rural, school districts and across the state; and will generate interest in science as a career choice. The opportunities and experiences provided by this program will inspire Georgia school children to consider challenging careers in science and engineering.	\$450,000

Hartsfield-Jackson Critical Area Mgmt System	Hartsfield-Jackson Atlanta International Airport	City of Atlanta, Department of Aviation	PO Box 20509	Atlanta	GA	30320	Hartsfield-Jackson Atlanta International Airport is a non-profit municipal entity owned and operated by the City of Atlanta. Requested funding will be used to upgrade technology at the Hartsfield-Jackson Atlanta International Airport in order to eliminate airfield congestion, thereby improving safety and reducing delays. As the largest passenger airport in the world, ATL serves major international and domestic markets around the globe and reducing airfield congestion is critical to improving the efficiency of the national aviation system.	\$5,000,000
Healthy Kicks for Kids Initiative	Soccer In The Streets/ U.S. Soccer Foundation	2323 Perimeter Park Drive NE		Atlanta	GA	30341	Soccer In The Streets is an Atlanta-based nationwide non-profit organization that develops soccer, educational and life-skills program for "at-risk" children. The Healthy Kicks for Kids Initiative would fund a pilot project in Atlanta focusing on the sport of soccer as a means to promote healthy lifestyles to children. According to the Centers for Disease Control and Prevention, over the past three decades the childhood obesity rate has more than doubled for preschool children aged 2-5 years and adolescents aged 12-19 years, and it has more than tripled for children aged 6-11 years. Obesity-associated annual hospital costs for children and youth more than tripled over two decades, rising from \$35 million in 1979-1981 to \$127 million in 1997-1999. The Healthy Kicks for Kids Initiative demonstrated success in Philadelphia and must produce measurable outcomes, and best practices to be disseminated to other programs nationwide.	\$1,000,000
Historic Beacon Complex Renovation	City of Decatur	509 North McDonough Street	P.O. Box 220	Decatur	GA	30031	The City of Decatur is working to renovate and preserve the only remaining facility in the Beacon community - once the center of African-American life in the city. In addition to renovating the facility for community use, the City seeks to house the Police Department and Emergency Operations Center in the building. The completion of this facility will help the Decatur and County to better respond to emergency situations in centralized and collaborative effort. This facility is eligible for the National Register of Historic Places.	\$10,000,000
HIV/Prisoner Re-Entry Program	Georgia State University	30 Courtland Street	Room 326, Alumni Hall	Atlanta	GA	30303	Georgia State University's initiative for HIV-Infected inmates helps expand collaboration among the Georgia Department of Corrections, the Georgia State Board of Pardons and Paroles, the Georgia Department of Public Health and Georgia State's Institute of Public Health by continuing to evaluate the effectiveness of an innovative prison release preparation program for HIV-infected inmates and identify ways to expand the scope of this program. It increases adherence to therapeutic regimens, reduces risk behaviors associated with the spread of HIV infection, decreases recidivism rates and criminal activity among HIV-infected inmates recently released from Georgia prisons.	\$500,000

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Requested Amount
I-285 Transit Corridor Project	Perimeter Community Improvement Districts	1 Ravinia Drive	Suite 1125	Atlanta	GA	30346	The Perimeter Community Improvement District, a non-profit, self-taxing business improvement districts focuses on projects related to economic development and transportation improvements in the business district. A corridor study indicated the feasibility of a bus rapid transit or light rail project generally parallel to I-285 from US 41 on the west to the MARTA North rail line and the Perimeter employment area, and from there to the I-85 corridor on the east. The requested funds would be used to complete the environmental reviews and the preliminary engineering for transit solutions in this corridor.	\$500,000
Intensive Surveillance Probation Project	City of Atlanta/ Mayor's Office of Weed and Seed	250 Georgia Avenue	Suite 346	Atlanta	GA	30312	The City of Atlanta's Intensive Surveillance Probation Project provides intensive intervention services to children who are adjudicated delinquent to prevent further penetration into the juvenile or criminal court systems in a partnership with the City of Atlanta and Fulton County Juvenile Court. This initiative provides intensive intervention services with the goal of reducing recidivism rates, by identifying risk factors, and promoting and establishing healthy living and good citizenship.	\$250,000
Interstate - 20 East Transit Corridor	Metropolitan Atlanta Rapid Transit Authority (MARTA)	2424 Piedmont Road, NE		Atlanta	GA	30324	MARTA is a public provider of comprehensive public transportation services. The request would support the Alternatives/Environmental Analysis Phase of the I-20 East Corridor Fixed Guideway Transit Line. The requested funds would be used specifically to develop the Draft Environmental Impact Statement (DEIS) for Phase 1 of the corridor. The overall purpose of the fixed-guideway transit project is to improve mobility, reduce travel time, support sustainable community development and mitigate traffic congestion in this major corridor linking the Atlanta CBD and expand south DeKalb communities. This initiative is authorized in P.L. 109-59.	\$3,500,000
ISA Redesign Program at High Schools in Atlanta	Atlanta Public School System	130 Trinity Ave SW		Atlanta	GA	30303	The Atlanta Public School system has partnered with the Institute for Student Achievement to implement a school reform program in Carver, Therrell, and South Atlanta High Schools. This initiative works to transform larger high schools into small learning communities and schools designed to prepare students for college. The results are smaller, more-targeted classrooms and curriculum that are centered on supporting vulnerable students who susceptible to dropping out. This project epitomizes much-needed new methods of improving educational outcomes for students that can be replicated across the country.	\$300,000
Johnson Ferry Glenridge / City of Sandy Springs	City of Sandy Springs	7840 Roswell Road	Bldg 500	Sandy Springs	GA	30350	The City of Sandy Springs seeks to address traffic congestion and improve vehicular and pedestrian operations along the Johnson Ferry and Glenridge Drive corridor from Abernathy Road to Hammond Drive. The scope includes upgrades to accommodate additional capacity needs as well as associated intersection improvements. The goal of this initiative is to provide improved safety and increase capacity for daily corridor use, and it is authorized in Sec. 1702 of Public Law 109-59.	\$3,000,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Jumpstart Atlanta, School Success for All Initiative	Jumpstart for Young Children	100 Edgewood Avenue	Suite 1080	Atlanta	GA	30303	Jumpstart works with Morehouse and Spelman Colleges, Georgia State, Emory University, and Georgia Institute of Technology to recruit and train college student mentors for young children in target communities, like the West End, Bankhead, Vine City, and downtown Atlanta. Next year, Jumpstart will serve over 500 children, engage roughly 200 college students, and work with even more underserved preschool centers. Investing in quality, early education programs, money is saved in the long-term and the educational outlook of children in low-income communities improves significantly.	\$150,000
Jumpstart for Campus-Wide Technology Upgrade	Atlanta Christian College	2605 Ben Hill Road		East Point	GA	30344	The Atlanta Christian College (ACC) is working to complete a network overhaul for faster and more secure connectivity, and to support online and remote access for non-traditional students. An instructional computer lab will also be created along with updating older classroom technology. ACC is a non-profit, four year college located near Atlanta, GA. One-third of today's college students are nontraditional students attempting to complete their degrees in order to obtain jobs and/or higher wage jobs in a changing economy. Programs targeting these students must be offered in a nontraditional format to support this adult-working population without interrupting their ability to earn an income.	\$1,170,000
Jumpstart for Workforce Development Programs	Atlanta Christian College	2605 Ben Hill Road		East Point	GA	30344	The Atlanta Christian College (ACC) is a non-profit, private-four year college located near Atlanta, GA. The Jumpstart for Workforce Development program seeks to develop and expand curriculum and courses targeting non-traditional, returning students. These classes would focus specifically on the skills and training needed to compete competitively and secure livable wage jobs in a swiftly changing economy.	\$895,000
Law Enforcement Technology Upgrade Project	City of East Point, Georgia	2777 East Point Street	Office of the City Manager	East Point	GA	30344	The City of East Point seeks funding to install Mobile Data Terminals in city police cars in order to connect them with systems being installed in fire trucks for onsite use at incidents. The project will put more information at the fingertips of both police and fire personnel while they are in the field without having to radio back to dispatch. In return, this will allow more manpower in the field to be responsible to citizenry requests. The Police Department protects not just the City's residents, but much of metropolitan Atlanta. The project will better enable East Point to meet federal mandates on local law enforcement agencies.	\$350,000
MARTA Acquisition of Clean Fuel Buses	Metropolitan Atlanta Rapid Transit Authority Metropolitan Atlanta Rapid Transit Authority (MARTA)	2424 Piedmont Road, NE		Atlanta	GA	30324	MARTA provides comprehensive public transportation service in Metro Atlanta. Funds will be used to acquire alternative fuel buses for transit passenger service throughout the region. These new vehicles will replace aging buses and will provide an energy-efficient and environmentally-sustainable mode of transportation for the citizens of Metro Atlanta. This project will support national goals of improving air quality, becoming more energy independent, and providing safe and accessible transit services for urban residents and visitors.	\$9,000,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

MARTA Clifton Corridor (Lindbergh/Emory/ Decatur Branch)	Metropolitan Atlanta Rapid Transit Authority (MARTA)	2424 Piedmont Road, NE	6th Floor	Atlanta	GA	30324	The Metropolitan Atlanta Rapid Transit Authority (MARTA) is a multi-modal, public transportation agency providing comprehensive bus, rail and para-transit service within Fulton and DeKalb Counties and the City of Atlanta. The requested funding will be used for the Alternatives Analysis (AA)/Draft Environmental Impact Statement (DEIS) phase of this project, which is intended to relieve severe traffic congestion in the well-traveled corridor. Clifton Corridor is a regional activity center and, due to the national significance of the Centers for Disease Control, holds high consideration for access/evacuation elements under Homeland Security concerns.	\$1,000,000
MARTA Hamilton Clean Fuel Bus Facility	Metropolitan Atlanta Rapid Transit Authority (MARTA)	2424 Piedmont Road, NE		Atlanta	GA	30324	MARTA is a public provider of comprehensive public transportation services. The requested funding would be used to construct, expand, renovate and equip the MARTA Hamilton/Southside Clean Fuels Bus Facility. These capital improvements will enable this facility to support the refueling and maintenance of clean fuel compressed natural gas (CNG) buses while also providing the capacity for MARTA to deploy and maintain a mix of transit bus types in a more efficient and effective configuration. This project will support national goals to improve air quality and decrease the country's reliance on imported sources of petroleum.	\$19,000,000
MARTA WestLine Extension	Metropolitan Atlanta Rapid Transit Authority (MARTA)	2424 Piedmont Road, NE	6th Floor	Atlanta	GA	30324	The Metropolitan Atlanta Rapid Transit Authority (MARTA) is a multi-modal public transportation agency providing comprehensive bus, rail and paratransit service within Fulton and DeKalb Counties and the City of Atlanta. The requested funding will be used to support the update and refinement of the Alternatives Analysis/Draft Environmental Impact Statement (DEIS) for MARTA's proposed WestLine Extension. This project will support national goals to improve air quality, promote energy independence while decreasing the reliance on imported sources of petroleum, and provide environmentally-sustainable transit services to citizens in urban communities.	\$1,500,000
Martin Luther King, Sr. Community Resources Service Center	Intergenerational Resource Center, Inc.	444 Edgewood avenue, N. E.		Atlanta	GA	30312	The Intergenerational Resource Center, Inc. (IRC) is a non-profit organization that provides community-based health and social services. Funding for this project will be used to erect a two-story facility that will offer health and social service programs to indigent members of the community. The delivery of services will be in partnership with the Georgia Department of Labor, Fulton and DeKalb Departments of Family and Children Services, Georgia Department of Community Health, St. Joseph's Mercy Mobile center, and a host of other agencies.	\$1,000,000

Metropolitan North Georgia Water Planning District	Metropolitan North Georgia Water Planning District	40 Courtland Street, NE		Atlanta	GA	30303	The Metro North Georgia Water Planning District is a planning entity dedicated to developing comprehensive regional and watershed-specific plans to be implemented by local governments for storm water management, wastewater management and water supply and conservation in a 16-county Metropolitan Atlanta area. Water management is a critical issue for the State of Georgia, especially as the State works to mitigate one of the worst droughts in recent history. MNGWPD serves broad public purpose of protecting water supplies and water quality. The funding would be put used for watershed monitoring and restoration projects as well as future floodplain mapping efforts. Local governments throughout the District's 16-county area are required to implement the MNGWPD's three water resource plans in order to receive permits from GA EPD.	\$3,000,000
Morehouse College Energy Science Research and Education Initiative	Morehouse College	830 Westview Drive, SW		Atlanta	GA	30314	Morehouse College will continue to develop The Minority Energy Science Research and Education Initiative, a comprehensive program for high achieving students, to prepare them for the rigors of STEM-related careers. The program immerses the participants into a 4-year program, beginning the summer before their freshman year, and involves a structured program of mentored research, tuition support, ongoing seminars, and summer research experiences at research laboratories around the country. To complement recruiting, education, retention of minority scholars, Morehouse also seeks to selectively enhance its laboratory facilities in Dansby Hall that are designed to enhance and advance research areas consistent with NNSA objectives.	\$2,500,000
Morehouse College Martin Luther King, Jr. Research and Education Initiative	Morehouse College	830 Westview Drive, SW		Atlanta	GA	30314	In 2006, Morehouse College assisted in raising over \$32 million to acquire the most comprehensive collection of Dr. Martin Luther King, Jr.'s papers and speeches from the King family. Morehouse seeks to develop an energy-efficient exhibit space for Dr. King's collection of papers. Capital construction funds will be used to build a green building for research, symposia, exhibition, and educational programs for academics, students, world leaders, and the public to understand the significance of Dr. King's life and work.	\$10,000,000
Morehouse College, John H. Hopps Defense Research Scholars Program	Morehouse College	830 Westview Drive, SW		Atlanta	GA	30314	This program is designed to extend Dr. Hopps' legacy into the 21st Century by providing meaningful opportunities to young African American researchers and thereby increasing the number of minority scientists entering into advanced research positions. The funds would support the needed infrastructure and increase research capacity to establish student mentor relationships within active research laboratories both in Atlanta and around the country, which will further the stated federal and Department of Defense goals of encouraging minority participation in the sciences and advanced research.	\$3,000,000

Morehouse School of Medicine Health IT Partnership	Morehouse School of Medicine	720 Westview Dr., SW	Atlanta	GA	30310	Morehouse School of Medicine (MSM) is leading the Health Information Exchange for Safety Net Providers in order to address this unmet need in the metro Atlanta area. Electronic health records and other IT modalities are seen as critical components to addressing many of the problems facing the American health care system, including, but not limited to error prevention, cost containment, translation of research findings to evidence-based care, the need for greater focus on prevention, and improved health literacy. This Initiative addresses the digital divide in accessing health information technology for community-based health providers like Morehouse School of Medicine, Grady Memorial Hospital, public health departments, federally qualified community health centers and other community-based providers dedicated to serving the poor and uninsured.	\$7,250,000
MSM Adjacent Property Request	Morehouse School of Medicine	720 Westview Dr., SW	Atlanta	GA	30310	Morehouse School of Medicine (MSM) is an historic health-professions school trains students to be primary care professionals who serve underserved communities. MSM is working with its HBCU sister institutions to acquire and develop an eleven-acre plot of public housing land directly across from its campus. The acquisition and revitalization of this property holds great promise for increasing the institutional capacity of MSM and revitalizing the West-End neighborhood through greater economic, educational, and health care opportunities for the community.	\$3,000,000
Nanoscience and Biotechnology Laboratories and Research Program	Clark Atlanta University	James P. Brawley Dr., SW	Atlanta	GA	30314	Clark Atlanta University (CAU) is a national leader in cancer and biomedical research as well as nanoscience. Support for the research program would enhance CAU's nanotechnology and biotechnology such as nanophotonics, nanodevices and materials, bio-nanotechnology (applications of nanotechnology to biomedical research), environmental biotechnology, and other research efforts in mission areas that are critical for the Department of Defense and several other agencies. Requested funding would specifically be used towards the purchase specialized laboratory equipment and some minor laboratory upgrades and to support the training and education of underrepresented minorities in these areas, particularly at the graduate level.	\$2,000,000
National Textile Center	Georgia Institute of Technology	801 Ferst Drive, MRDC-I Bldg.	Atlanta	GA	30332	For nearly 16 years, the NTC has functioned as a fundamental research base supporting the Fiber/Textile/Fiber Products/Retail (FTFPR) Industrial Complex. This program is a national program that involves the following universities in addition to Georgia Tech: Auburn, NC State, Clemson, Philadelphia, University of Massachusetts-Dartmouth, Cornell, and the University of California-Davis. Working in concert with industry leaders, the NTC university partners are conducting key, high-risk research to modernize the FTFPR Complex and respond to critical national needs, sponsoring more than 60 research projects per year.	\$10,000,000

Partnership to Improve K-12 Science Education	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	Georgia State University requests funding to continue to develop and expand a model program for improving science education that involves a dynamic partnership between colleges and universities, school systems, community educational organizations and the life sciences industry. This unique partnership is working to improve K-12 science literacy by improving the science content knowledge of teachers, assisting teachers with curriculum development and implementation, and providing programs that get students excited about science. Unfortunately, the state of Georgia consistently ranks as one of the lowest in the nation in K-12 science standardized test scores. The biotechnology and life science industry is among the fastest growing industries in the state, and this initiative plants the seeds for growing and training the next generation of scientists and technicians.	\$750,000
Peachtree Corridor Project (Phase 2) GDOT, Buckhead CID	Buckhead Community Improvement District	3340 Peachtree Rd NE	Suite 1640	Atlanta	GA	30326	The Buckhead Community Improvement District (CID) is a taxation entity of state government created by City of Atlanta resolution that focuses on transportation improvement projects within the Metro Atlanta region. Federal funding would be used towards the re-design and re-engineering of Peachtree Road (State Route 141) from Georgia 400 to Roxboro Road. The goal of this funding is to improve roadway operations, pedestrian and bike network with turn lanes, signal timing, lighting, traffic control median and widening. This initiative seeks to mitigate congestion and improve air quality by reducing travel times, travel delays and providing pedestrian network support for mixed, high density land uses.	\$6,000,000
Peachtree Dunwoody Roadway Upgrades/ City of Sandy Springs	City of Sandy Springs	7840 Roswell Road	Bldg 500	Sandy Springs	GA	30350	The City of Sandy Springs Public Works Department is responsible for the City's street transportation system. This project seeks to address traffic congestion and to improve vehicular and pedestrian operations on the Peachtree Dunwoody corridor from Abernathy Road to Spalding Drive. Upgrades to Peachtree Dunwoody Road to accommodating the additional capacity needs as well as associated intersection improvements will provide improved safety as well as capacity to the users that use this corridor daily.	\$3,000,000
Renovation - Friends of Disabled Adults /DeKalb County Georgia	Community Development Department- DeKalb County, GA	1807 Candler Road		Decatur	GA	30032	The Friends of Disabled Adults and Children, Too! (FODAC) is a nonprofit organization that provides free or lower cost of services and equipment for disabled community. The organization and facility is located in DeKalb County, Georgia; however, it provides statewide and national services. Funding will be used to renovate an existing facility for Friends of Disabled Adults and Children, Too (Fodac) and will increase the organization's capacity to serve the disabled community.	\$273,000

Research Facility for Biomedical Research	Clark Atlanta University	223 James P. Brawley Dr., SW		Atlanta	GA	30314	Clark Atlanta University is creating an animal care/research facility as part of phase II of the Science Research Center Annex to support biomedical research programs at Clark Atlanta University. This animal facility is being developed specifically to support and integrate advances in biological sciences, cancer research, physics, computing and other basic sciences for the development and application of new and enhanced techniques to address important problems in biology, medicine, human health and disease. CAU is a national leader in prostate cancer research and biomedical research, and routine availability of a state-of-the-art facility for animals has become essential in modern biomedical research.	\$6,000,000
Restore Our Homes-Homeownership Center, Atlanta, GA	National Urban League	100 Edgewood Avenue, Suite 600		Atlanta	GA	30303	To better serve Georgia residents, the National Urban League (NUL) and the Atlanta Urban League will expand and enhance the services offered by the Restore Our Homes -Homeownership Center. This initiative connects people to housing counseling, homebuyer education, financial literacy workshops, credit counseling, fair housing advocacy and foreclosure assistance. Literacy counseling in Georgia is much need; Georgia has the nation's eighth highest foreclosure rate while Metro Atlanta's monthly foreclosures continue to set new records. Combined with the state's high unemployment, these services are critical in assisting those hardest hit by the current economic downturn.	\$500,000
Safety Net Clinic	Center for Black Women's Wellness (CBWW)	477 Windsor Street, SW	Suite 309	Atlanta	GA	30312	The Center for Black Women's Wellness (CBWW) is an Atlanta-based, non-profit organization that provides free and low-cost quality healthcare to low-income, uninsured women and men. Already, they serve more than 2000 families each year. By providing a holistic approach to wellness, with a focus on women's healthcare, economic self sufficiency, adolescent health, and maternal and infant health, CBWW seeks to expand services, train more staff, and volunteers to serve an increasing number of uninsured Georgians.	\$100,000
Southeastern Center for Emerging Biologic Threats (SECEBT)	Emory/ Southeastern Center for Emerging Biologic Threats	Rm 446, Dental Bldg	1462 Clifton Rd, NE	Atlanta	GA	30322	The Southeastern Center for Emerging Biologic Threats (SECEBT) works to minimize the impact of potential threats by convening regional partners to coordinate, cooperate, educate and develop strategies to deal with harmful biologic agents such as anthrax, West Nile virus, SARS, influenza, MRSA, and others. The Southeastern Center for Emerging Biologic Threats (SECEBT) within Emory University will build upon successful research, training and innovative programs related to bioterrorism and emerging biologic threats, including West Nile virus, epidemic influenza, avian influenza, and staph infections that are resistant to antibiotics related to penicillin. SECEBT is the only project of its kind in the United States, fostering regional collaboration between academic, state and federal resources.	\$750,000

Southern Hydrogen & Fuel Cell Coalition: An Initiative of the Center for Transportation and the Environment	Center for Transportation and the Environment	730 Peachtree Street	Suite 330	Atlanta	GA	30308	The Center for Transportation and the Environment is a nonprofit organization based in Atlanta with the mission of manufacturing, demonstrating, and evaluating advanced hydrogen and fuel cell technologies through the use of high tech resources and innovation capacities concentrated in the American South. Federal funding will support the Southern Hydrogen & Fuel Cell Coalition (SHFCC) initiative and be used as seed funding for 6-8 hybrid hydrogen and fuel cell vehicle and infrastructure demonstrations through 2010. Continued funding of SHFCC projects furthers the federal government's commitment to encourage new energy source technologies that reduce U.S. dependence upon fossil fuels and that are less harmful to the environment.	\$1,200,000
Southern Pine Based Biorefinery Center	Georgia Institute of Technology	901 Atlantic Drive		Atlanta	GA	30332	Georgia Institute of Technology is working to create a biomass processing facility that integrates our ability to tailor biomass productivity and processability with conversion processes and the equipment to produce biofuels and bioenergy. This technology would incorporate advanced biological and/or thermal conversion technologies to generate biofuels from waste lignocellulosic streams in the pulp and paper industry could generate two billion gallons of biofuels annually. Research and development in these areas could become a major contributor to the effort to increase energy security, reduce carbon emissions, and stimulate rural economic development. As highlighted by the National Commission on Energy Policy and other sources, the technologies needed to generate cellulosic ethanol and 3rd generation biofuels is one of the highest national challenges this nation currently faces.	\$3,000,000
Spelman College Black Women's Health Initiative	Spelman College	350 Spelman Lane, S.W.	Box 1551	Atlanta	GA	30314	The Spelman College Black Women's Health Initiative is a comprehensive effort focused on raising awareness about the health issues facing Black women and cultivating a generation of young scholars, health professionals, and leaders who can contribute to future research, advocacy, education, policy, and services. The Center's work on women's health addresses a national need to develop leaders who can engage in research on issues that disproportionately impact the health status of women of African descent. Unfortunately, HIV/AIDS, obesity, diabetes, heart disease, and breast and cervical cancer are among the chronic and often preventable diseases that compromise the health status of Black women across the country.	\$450,000
Spelman College Critical Global Languages Initiative	Spelman College	350 Spelman Lane, S.W.	Box 1551	Atlanta	GA	30314	Spelman College hopes to initiate Phase I of the Initiative for the Study of Critical Global Languages fosters language immersion opportunities for college students with a specific focus on Mandarin Chinese, one of several languages identified as a priority under the National Security Language Initiative. It is critical that the United States develops advanced proficiency in languages and knowledge about regions critical to U.S. national security, diplomacy, intelligence, and economic competitiveness. Such a need is especially apparent among African American women, who continue to be under-represented in programs that provide students with international exposure and immersion experiences.	\$950,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Spelman College Green and Environmental Science Projects	Spelman College	350 Spelman Lane, S.W.	Box 1551	Atlanta	GA	30314	Spelman's Environmental Sciences and Studies Program will address the environmental, economic, and public health implications associated with global warming, and will assist efforts to create a healthy and sustainable environment. The requested federal funding would allow the College to undertake faculty development and equipment upgrade/acquisition to support this growing program, which has demonstrated a significant contribution to national efforts to train future minority, women scientists and policymakers in the areas of environmental studies, earth sciences, and sustainability.	\$300,000
Spelman College Women in Science and Engineering Program	Spelman College	350 Spelman Lane, S.W.	Box 1551	Atlanta	GA	30314	Spelman College's WISE program addresses a national need to increase the prevalence of under-represented racial minorities and women in science, technology, engineering and mathematics (STEM) disciplines, while strengthening Spelman's capacity to continue to serve as a national conduit for the human resources needed to sustain the country's global economic competitiveness. The WISE program continues Spelman's important role in providing the nation with a skilled scientific workforce. This initiative exemplifies the intent of the America COMPETES Act.	\$2,600,000
Strengthening Atlanta's Health Care Safety Net	Saint Joseph's Mercy Care Services, Inc.	424 Decatur Street, Se		Atlanta	GA	30312	Saint Joseph's Mercy Care Services (SJMCs), a non-profit Atlanta-based organization, provides daily health services --including medical, dental, case management, HIV prevention, health promotion, cancer prevention and supportive assistance -- in fixed and mobile community-based sites to metro Atlanta's underserved populations. The Strengthening Atlanta's Health Care Safety would support the construction and renovation of its facilities on Decatur Street, thus providing additional capacity for the primary care and dental programs. With this new capacity, SJMCs will partner with Grady Health System to work together to move patients out of the emergency room for routine primary and dental care, and to create a more appropriate medical home for Grady's homeless patients. The proposed initiative has the potential to lead to the development of a service delivery model that will include expanded access to care, quality service improvements, maximum efficiency and cost-effectiveness, and improved health outcomes.	\$500,000
The Herndon Plaza project	Historic District Development Corporation (HDDC)	522 Auburn Avenue		Atlanta	GA	30312	HDDC is a private, non-profit, community-based organization. Its mission is to expand and preserve affordable housing in the Historic Martin Luther King Jr. District and to provide social services to the community. Funds for the project will be used to rehabilitate the existing Herndon Plaza office complex to create approximately 24,000 square feet of viable commercial office space for lease at market rate to potential professional and institutional tenants. The rehabilitation of Herndon Plaza will create approximately 200 temporary construction and permanent job opportunities.	\$250,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

The Jewish Federation of Greater Atlanta's Innovative Aging-In-Place Services Project	Jewish Federation of Greater Atlanta	1440 Spring Street NW		Atlanta	GA	30309	The Jewish Federation of Greater Atlanta's Innovative Aging-In-Place Services project would develop, test, evaluate, and disseminate an innovative, model of targeted and coordinated support services that enhance independence, community building, and quality for life for Metro Atlanta senior citizens. The Jewish Federation of Greater Atlanta is a leading sectarian, non-profit that provides an array of health and social services in the community. The program's community-based, multiple supportive services exemplify national goals established by the Government Accountability Office and the Administration on the Aging.	\$300,000
The Marcus Autism Center Expansion of Services	Marcus Autism Center	1920 Briarcliff Road		Atlanta	GA	30329	The Marcus Autism Center, an Atlanta-based nonprofit organization, seeks to develop telemedicine therapeutic intervention services and to build a statewide outreach model for therapeutic, intervention and case management services for children with Autism and related disorders. This will include expanding the growth of service delivery in rural Georgia including support for families and practitioners, and training a statewide network of providers trained in behavior therapies. The purpose of this effort is to address state and national challenges of supporting the needs of autistic children and their families.	\$600,000
The Marcus Autism Center Resource Center	Marcus Autism Center	1920 Briarcliff Road		Atlanta	GA	30329	The Marcus Autism Center is working to create a virtual extension of the existing Resource Center utilizing web based resource guides and training tools. The Center intends to expand electronic and hard copy media made available through the Resource Center. Currently, it is a challenge for families to locate and navigate the few resources that exist, and to access resources due to the shortage of subspecialty providers. The Marcus Autism Center is a nonprofit organization located in Atlanta, provides services designed to diagnose, treat and provide support for children who have been diagnosed with, or exhibit signs of Autism and related disorders.	\$100,000
The Youth Violence Prevention Center of Atlanta	Georgia State University	30 Courtland Street	Room 326 Alumni Hall	Atlanta	GA	30303	The Youth Violence Prevention Center of Atlanta (YVPCA) is a nationally recognized center of excellence that counters the surge in youth violence. Requested funding will strengthen and expand programs at the center with the goals of building the community's collaboration for youth violence prevention, significantly reducing youth-perpetrated violence, and improving the scholastic performance of students in the city's most affected schools. This initiative exemplifies the Juvenile Justice Runaway Youth and Missing Children's Act Amendments to the Juvenile Justice and Delinquency Prevention Act of 1974.	\$693,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Women's Empowerment Training Center	SCLC/Women's Organizational Movement for Equality Now, Inc. (SCLC/W.O.M.E.N., INC.)	328 Auburn Avenue, NE		Atlanta	GA	30303	SCLC /Women's Organizational Movement For Equality Now, Inc. (SCLC/W.O.M.E.N., Inc.), an Atlanta-based non-profit, is working to expand the Women's Empowerment Training program. This initiative provides educational, employability and computer skills, job development, career counseling and personal development skills for disadvantaged adults inclusive of Hurricane Relief Evacuees, teen parents, ex-offenders, persons in recovery from substance abuse and residents of homeless shelters; participants' ages range from 20 to 64. Located in a predominately low-income neighborhood, the area surrounding the Empowerment Training Center supports several housing developments for both the elderly and young adults with children. In a high-unemployment state, it is critical that workers have every opportunity to develop the skills needed to become gainfully employed in a rapidly changing economy.	\$100,000
Woodruff Arts Center Area Economic Development	Woodruff Arts Center	50 Hurt Plaza		Atlanta	GA	30303	The Woodruff Arts Center, a non-profit arts institution, is the fourth-largest performing arts center in the United States and is the largest support mechanism for arts education in the state of Georgia. Requested funds would be used to renovate and expand the 40 year old Memorial Arts Building of the Woodruff Arts Center. The renovation and expansion activities that will create 1,725 jobs and sustain 1,350 jobs over a ten-year period while making a high-return investment in the Arts Center as a proven catalyst for area-wide economic development.	\$1,000,000
Woodruff Arts Center Education and Outreach Program	Woodruff Arts Center	50 Hurt Plaza		Atlanta	GA	30303	The Woodruff Arts Center, a non-profit arts institution, is the largest support mechanism for arts education in Georgia, reaches one million school children annually to advance the proven connection between arts education and academic performance. Requested funds will enable the expansion of K-12 initiatives and implementation of the afterschool and entrepreneurship programs to enhance opportunities for the 125,000 students currently reached in the 5th Congressional district. This arts program serves not only as a healthy outlet for students, but also keeps them off the streets in a stable, secure, and positive environment.	\$1,200,000
Woodruff Arts Center Energy Efficiency and Sustainability Project	Woodruff Arts Center	50 Hurt Plaza		Atlanta	GA	30303	The Woodruff Arts Center seeks funding for the green renovation and expansion of the 40 year old Memorial Arts Building estimated to cost \$300 million and create an incremental economic benefit of \$1.5 billion to the City. Given the size of its campus in Midtown Atlanta, the Arts Center has long recognized the value and has been at the forefront of energy efficiency enhancements, including the installation of a green grid roof system above the High Museum of Art. Requested funding will support design and acquisition related to thermal storage capacity, intelligent heating and cooling systems, lighting controls, and environmentally advanced transformers and switchgear. The Woodruff Arts Center is so committed to energy efficiency and sustainability, that it publishes a quarterly newsletter to the arts community on its environmental initiatives.	\$1,500,000

5th Congressional District of Georgia projects eligible for consideration in the FY10 appropriations cycle.

Project Title	Requesting Entity	Address	Address 2	City	State	Zip	Purpose	Requested Amount
Woodruff Arts Center Transportation and Accessibility Improvements	Woodruff Arts Center	50 Hurt Plaza		Atlanta	GA	30303	The Woodruff Arts Center, a nonprofit Metro Atlanta arts institution, is working to expand arts, cultural, and educational initiatives, and seeks funding for roadway improvements to improve accessibility in the midtown Atlanta district anchored by the Arts Center. Requested funding would be used for the construction of pedestrian walkways, bus drop-off points, and designated vehicle loading zones to reduce congestion, and increase foot traffic. The pedestrian walkways and foot paths connecting the Center to the adjacent MARTA station and planned bus drop-off points will mitigate heavy congestion and facilitate mass transit.	\$600,000
Zoo Atlanta: Animal Hospital Equipment and Systems	Zoo Atlanta	800 Cherokee Avenue		Atlanta	GA	30315	Zoo Atlanta is a non-profit 501(c) status organization that exhibits, studies, and cares for its collection of animals. A nationally recognized leader in animal conservation, welfare and education initiatives, Zoo Atlanta plans to create a new animal hospital that will enhance and expand the academic partnerships and strengthen veterinary care in the region. Requested funding will be used towards construction costs, the purchase radiology and diagnostic equipment, and the installation of environmentally protective building systems that will save water and reduce energy consumption. The animal hospital will meet or exceed LEEDS Silver certification, and in addition to animal care at Zoo Atlanta, the facility will be used for teaching collaborations with colleges and universities that include the University of Georgia and Fort Valley State University.	\$500,000
